PROFESSIONAL SUMMARY

Creative and detail-oriented Full-Stack Developer with a strong foundation in responsive UI development, modern web technologies, and backend server architecture. Proficient in React, Next.js, TypeScript, Python, SQL, and FastAPI, with hands-on experience building dynamic interfaces, AI integrations, and robust database systems. Skilled in managing application state, deploying projects via CI/CD pipelines, and managing custom Linux VPS environments. Passionate about building impactful digital products, especially in the education and social innovation space, with a track record of taking projects from idea to MVP independently.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Python, SQL, Dart, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Tailwind CSS, Material UI (MUI), Shadcn UI, TanStack Query, Framer Motion, GSAP

Backend & Databases: FastAPI, Node.js, PostgreSQL, SQLite, MySQL, SQLAlchemy, Pydantic, GraphQL, Firebase, MongoDB, Drizzle ORM

DevOps & Tools: Linux VPS Administration, Nginx Reverse Proxy, PM2, Docker, Git, GitHub, Vercel, RESTful API Design, Postman

WORK EXPERIENCE

Full-Stack Developer | *T4ef* 01/2026 – Present

- Engineered the complete UI architecture for Aegis Procure (aegisprocure.com), an internal multi-tenant tool for procurement management.
- Collaborated on the development of an AI-powered Knowledge Management System and an internal HR application for tracking employee leave and work hours.
- Integrate RESTful and GraphQL APIs, managing efficient data fetching, caching, and database transactions using PostgreSQL and SQLite.

Front-End Developer | *Stella Maris Schools – Abuja* 08/2024 – 11/2024

- Improved site performance using advanced React.js techniques and ensured seamless visuals across devices through responsive web design.
- Integrated RESTful APIs into existing software systems for enhanced application functionality.

Front-End Developer | *COVA Technologies – Abuja* 09/2023 – 12/2024

- Optimised web pages for maximum speed and scalability, improving overall usability.
- Translated wireframes into functional code to bring visual concepts to life.

Mobile Developer | *NiMedix Ecosystem – Abuja* 07/2023 – 11/2023

- Developed user-friendly mobile applications for enhanced customer engagement.

SELECT PROJECTS

- Commercial Web Development (AtomTechServe, Pomade Consultancy, T4ef):** Designed, built, and successfully deployed full-scale corporate web platforms (atomtechserve.com, pomadelimited.com, t4ef.org). Managed complete deployment lifecycles on Linux VPS, configuring Nginx as a reverse proxy for secure routing and utilizing PM2 for continuous background process management.
- SafeMap:** Developed a real-time community alerting system using React Native. The application utilizes geo-positioning to notify users within a specific radius of potential or ongoing localized unrest.
- OpenCBT:** Currently building a Local Area Network (LAN) Computer-Based Test (CBT) platform designed to help Nigerian schools seamlessly prepare students for standardized digital exams.

- **Fintech Ledger Tool:** Designed and implemented a custom pool management and ledger system. Engineered the database schema utilizing Drizzle ORM to track real-time debit/credit balances, secured behind a custom ID and personal key authentication flow.
- **Corporate Application Portal:** Developed a corporate web platform featuring dynamic employee profiles, executive leadership data, and a secure system for collecting and processing applicant PDF uploads.

COMMUNITY LEADERSHIP

Google Developer Group Lead | *Google – Ife, Osun State*

07/2024 – 07/2025

- Co-led the Mobile track for the GDG Oduduwa University, managing a community of over 200 developers.
- Developed and taught a series of technical skilling classes focused on Web Development.

EDUCATION

Bachelor of Science, Computer Science

01/2022 – 07/2025

Oduduwa University Ipetumodu
