Professional Experience

Full-Stack Developer | T4EF (Jan 2026 – Present)

- Engineered frontend architecture for Aegis Procure, a multi-tenant procurement management platform.
- Collaborated on AI-powered Knowledge Management and HR management systems.
- Designed and developed the T4EF corporate website independently.
- Built CMS-driven applications using Next.js, Drizzle ORM, and SQLite.
- Integrated REST and GraphQL APIs and implemented efficient data fetching strategies.
- Managed Linux VPS deployments using Nginx, PM2, and Oracle Cloud infrastructure.

Front-End Developer | Stella Maris Schools (Aug 2024 – Nov 2024)

- Built and maintained core frontend components for the school's digital platform.
- Troubleshoot application issues and improved platform reliability.
- Integrated frontend systems with backend APIs.
- Mentored and trained an intern on frontend development practices.
- Implemented responsive interfaces across devices.

Front-End Developer | COVA Technologies (Sep 2023 – Dec 2024)

- Developed client-facing websites and digital platforms.
- Converted designs into production-ready React and Next.js applications.
- Optimized website performance and responsiveness.
- Collaborated with stakeholders to deliver marketing and branding solutions.

Mobile Developer | NiMedix Ecosystem (Jul 2023 – Nov 2023)

- Developed frontend features for mobile applications using React Native.
- Implemented responsive mobile interfaces and API integrations.
- Collaborated with team members to deliver healthcare-focused mobile solutions.

Independent Development & Consulting – Idibia (2024 – Present)

- Designed, developed, and deployed custom web solutions for businesses and organizations.
- Built and maintain websites including Amos Magaji Foundation, AtomTechServe, and Baywise Technology.
- Managed hosting, VPS infrastructure, SSL configuration, Nginx reverse proxies, and deployments.
- Delivered CMS-enabled platforms and ongoing maintenance services.

Selected Projects

SafeMap: Real-time community safety platform using geolocation-based alerts.

OpenCBT: Offline-friendly LAN-based CBT platform for schools and training centers.

Fintech Ledger Tool: Custom debit/credit ledger and pool management platform using Drizzle ORM.

Corporate Application Portal: Employee profile and applicant management platform.

Community Leadership

Google Developer Group Lead | 2024 – 2025

- Co-led developer community initiatives and technical training programs.
- Delivered web development learning sessions and mentorship.

Education

B.Sc. Computer Science

Oduduwa University, Ipetumodu (2022 – 2025)
